

Shower swinging door design

Product Features

- A designer mix and match Frameless Glass Shower and Panel system to provide a competitive alternative to custom designed showers.
- Many options available for various sized Showers and Panels that can be used to make a complete shower or separate panels used to make most of the panels, with specific side panels made to order.
- 10mm Toughened Safety Glass for high impact resistance and safety.
- Aluminium Channel provides for walls and floors slightly out of level and provides strength for a rigid system.
- Various handle designs are available to match existing modern décors.
- Chrome Plate and Satin Chrome options available.
- Overpanels compliment the design to provide additional strength and ease of installation.
- Manufactured to AS/NZ 2208 safety glass standards.

Quality "Elite" brass and chrome plated shower hinges and designer shower handle options available.
